Health Sciences

Gain a strong foundation in the health sciences while learning and practicing skills that prepare you for a career that promotes health and wellness, treats injuries and provides care. Students will be introduced to basic knowledge, skills and values necessary to perform effectively in the health care workplace.

Core Skills

- Principles of infection control
- Medical terminology
- Workplace safety
- Medical ethics and law
- Anatomy and physiology
- Teamwork/employability
- Communication skills

Future Career Options

- Registered nurse
- Nursing assistant
- Surgical technician
- Physical therapist
- Athletic trainer
- EMT/paramedic
- Medical assistant
- Medical laboratory technician
- Dental assistant
- Veterinarian

Certifications/Academic Credit

- English and/or math credit
- Science credit
- VPAA elective credit
- PASSES EDGE workplace safety certificate
- CPR and first aid certification
- Early college eligibility
- Postsecondary articulated credit

Setting Students up for Success

Making connections with guest speakers, field trips, and taking advantage of job shadows, co-op and work experiences give students a head start in the field of health careers.

Leadership & Scholarship Opportunities

Club participation, competition and leadership can occur with HOSA, National Technical Honor Society and CTC Student Council.
