Teacher Academy

Experience all aspects of being a teacher while remaining in your home school. As a CTC student, you will gain experience working with different age groups and subject matter all while under the guidance of a mentor teacher.

Core Skills

- Working with students of various ages
- Working in a variety of content areas
- Developing age-appropriate lessons
- Working with a mentor/host teacher
- Development of curriculum/instructional materials
- Teamwork/employability
- Communication skills

Future Career Options

- School counselor/social worker
- Middle school/high school teacher
- Special education teacher
- Elementary teacher
- Speech pathologist
- ASD teacher

Certifications/Academic Credit

- English and/or math credit
- Postsecondary articulated credit
- VPAA elective credit
- First aid and CPR
- Blood pathogen certification
- Early college eligibility

Setting Students up for Success

Teacher Academy students are placed in classrooms with multiple host teachers. TA students observe, lead small groups, plan lessons, and teach lessons — all while being supported and guided by a mentor teacher.

Leadership & Scholarship Opportunities

Club participation, competition and leadership with FCCLA, tutoring opportunities, National Technical Honor Society and Student Council.

Student Support & Guidance

- Career Tech staff teach and reinforce positive work ethic in all students.
- Attendance and academic progress is monitored to guide students toward individual growth and career planning that will establish a pathway to a meaningful life.
- Seminars are provided on college planning, financial aid and scholarship opportunities.

Job Training & Experience

Career Tech programs offer all students a chance to:

- Gain hands-on training
- Use state-of-the-art technology
- Demonstrate leadership, workplace readiness and ethics
- Participate in internships, job shadows, work experience, or paid co-op experience
