

**equal**

**least**

**Least: Least means the smallest amount of something.**

You have one scoop of ice cream, mom has two, and I have three so you have the least.

Prompt:

Whose name has the least amount of letters?

What is your least favorite part of school?

**Equal: Equal means the same amount or same number of something.**

I have three pencils and you have three pencils so we have an equal number of pencils.

Prompt:

Let's try to line up and see if we can make two equal lines?

If we have four blocks (classroom object) and we want to put them in equal piles, how many blocks (classroom object) will be in each pile?
